

INSTITUTE FOR GENDER KILLING

MANIFESTO

**DEPARTMENT OF ART LIBERATION
CHONKINESS DIVISON**

THIS IS A HOSTILE TAKEOVER
CAPITALISM IS DEAD AND SO ARE THE SYSTEMS WHICH UP-
HOLD IT!
THESE ARE OUR DEMANDS

- A new art world; this one no longer sparks joy.
- A world where art is free from the shackles of colonialism, which does not center able bodiedness, cisness and whiteness.
- Art without transphobia, racism, anti-blackness, fatphobia and anti-traveller sentiments.
- Extreme bigotry and hoarding of wealth to be punishable by guillotine. (However we believe in transformation with accountability as a lifelong process.)
- To leave institutions in the past and go outside of the gallery.
- Art to be shared through community.
- Art to be accessible to all abilities and classes; everyone to have the means to create no matter their age, race, gender, sexuality, ability or class. All bodies are unique and worthy.
- To define ourselves by joy, pleasure and leisure instead of pain.
- To center those who are marginalised: you will be heard, seen and centered.
- To burn down all physical or systemic barriers to art. Art is for everyone.
- Venues to be physically accessible and free.
- Tacky colour schemes and glitter.
- Culture workers to be compensated fairly for their labour.
- All artists to be treated with respect and credibility at face value.
- The destruction of the concept of “outsider art”.
- Respect for ALL our trans and nonbinary siblings, including those whose identities or presentation may render them illegible under the cisheterosexual gaze.
- Individuals to be the sole authority on their gender and sexuality and to acknowledge that all our journeys and identities are unique.
- Ace, intersex folk and those who use non traditional pronouns to be included.
- To hold space for those whose identities exist outside of Western concepts of gender.
- People to thrive outside of the western transphobic gaze.
- To celebrate chonkiness and eradicate fatphobia.
- No specific body type to be put on a plinth.

**BECAUSE
ALL ART IS VALUABLE
ALL CULTURAL WORK IS WORK
ALL WORKERS DESERVE RIGHTS**

A new dawn of art will bring a new era of creativity where artists can create uninhibited by the constraints of the old art world. This change is possible, if we fight for it because **ART IS A NECESSITY**, we need it to breathe.
